

PRODUCT DATA SHEET

CHEM STRIP FLOOR STRIPPER

Effective Combination of Strippers:

With its effective combination of stripper, CHEM STRIP strips away tough polishes easily from all surfaces, including pre-sealed wood floors. The stripping action of CHEM STRIP is compatible with the use of high speed machines for professional results.

User Friendly:

CHEM STRIP does not rely on Ammonia for its stripping action, therefore no pungent or offending odors are produced. In fact, CHEM STRIP is most user friendly with a neutral odor and fast, effective action.

Cleans and Rinses Freely:

CHEM STRIP contains cleaners, which readily remove dirt and grime from floors. It easily mixes with water and freely rinses, resulting in a very convenient product when used on large floor areas.

Consult your CHEM CLEAN Specialist for specific use directions.

GENERAL USE DIRECTIONS:

Liberally apply CHEM STRIP directly from the container to areas to be stripped. For lighter soils, use a 1:1 dilution of the CHEM STRIP with water. Leave it to soak for 2-3 minutes. Scrub vigorously with a brush or scrubber, then mop up using clean water. It may be advisable to do a small area at a time to ensure that the area is thoroughly cleaned of surface material. Before applying fresh polish, ensure that the floor is thoroughly cleaned and dry.

KEEP OUT OF REACH OF CHILDREN.
DO NOT MIX WITH ANYTHING BUT WATER.
STORE IN A TIGHTLY CLOSED CONTAINER.
DO NOT REUSE CONTAINER.
FOR INDUSTRIAL USE ONLY.

ACTIVE INGREDIENTS:

Surfactant Blend

DANGER:

Harmful if swallowed. May cause irritation. Protect skin, eyes and mucous membranes from contact with this product and solutions of it.

FIRST AID:

EXTERNAL: Immediately flush skin with plenty of cool running water for at least 15 minutes. Immediately remove contaminated clothing and wash before reuse.

EYES: Immediately flush with plenty of running water. Remove contact lenses, if applicable. Continue flushing for at least 15 minutes.

INTERNAL: If swallowed consult a Physician. **DO NOT** induce vomiting. Rinse mouth. Do not give Carbonates or Bicarbonates. Immediately drink a large quantity of raw egg, milk or milk of magnesia then drink large quantities of water. Never give anything by mouth to an unconscious person. **GET MEDICAL ATTENTION IMMEDIATELY.**
