

PRODUCT DATA SHEET

CHEM POWER

HIGH PERFORMANCE CONCENTRATED LAUNDRY DETERGENT

Use in combination with CHEM WASH:

CHEM POWER is designed specifically for use in combination with CHEM WASH, automatically dispensed through a liquid laundry dispensing system. By varying the proportion of CHEM POWER and CHEM WASH in the dispensing mixture, a custom blend can be provided to suit the requirements of different wash formulas for different soils and other load conditions.

High Performance:

CHEM POWER has the high alkalinity required in a laundry product with the heavy-duty performance of a “break” product to break out soils. With more CHEM POWER in a wash wheel, heavier soil loads can be handled.

Helps prevent Graying and Yellowing:

CHEM POWER helps to keep whites and colors bright. Its water conditioning ingredients act to combat hardness minerals in the water and soils, which can cause dull, gray films. These ingredients also combat any iron content in the water which can cause fabric yellowing. In addition, CHEM POWER contains, anti re-deposition agents, which holds soils in suspensions that they do not re-deposit themselves onto the fabric to cause dulling.

Preserves tensile Strengths:

CHEM POWER does not reduce tensile strength of common fabrics such as cotton, polyester and blends when it is dispensed at a properly controlled rate in an automatic liquid dispensing system. (It is not intended for use on “delicate” fabrics such as wool and silk.)

Effective in all Normal Laundry Operations:

CHEM POWER is effective under all typical water hardness and temperature conditions. It can be used in all institutional on-premise laundry washing machines except those with porcelain-lined wash-tubs.

Consult your CHEM CLEAN Specialist for specific use directions

GENERAL USE DIRECTIONS:

CHEM POWER is specifically intended for use in liquid laundry dispensing systems in combination with CHEM WASH. The rate of dispensing is set in the laundry dispensing system by a CHEM CLEAN Laundry Specialist.

NOT for use in domestic Machines.

KEEP OUT OF REACH OF CHILDREN.
DO NOT MIX WITH ANYTHING BUT WATER.
DO NOT REUSE CONTAINER.
FOR INDUSTRIAL USE ONLY.

ACTIVE INGREDIENT:

Sodium Hydroxide

DANGER:

CAUSES SEVERE BURNS. Contains OVER 10% Sodium Hydroxide. Harmful if swallowed. Eye irritant. Protect eyes and mucous membranes from contact with this product and solutions of it. Wear rubber gloves.

FIRST AID:

EXTERNAL: Immediately flush with plenty of cool running water for at least 15 minutes. Immediately remove contaminated clothing and wash before reuse.

EYES: Immediately flush with plenty of running water. Remove contact lenses, if applicable. Continue flushing for at least 15 minutes.

INTERNAL: If swallowed consult a Physician. **DO NOT** induce vomiting. Rinse mouth. Immediately drink a large quantity of raw egg, milk or milk of magnesia then drink large quantities of water. Never give anything by mouth to an unconscious person.

GET MEDICAL ATTENTION IMMEDIATELY.
