

ECO-FLUSH: NON-ACID TOILET BOWL CLEANER

TECHNICAL SHEET

DESCRIPTION

Eco-Flush is an environmentally safe toilet bowl cleaner designed to provide effective cleaning and sanitizing of toilet bowls, without the harmful effect of aggressive chemicals such as hydrochloric acid, which can negatively impact ecosystems when discharged as an effluent. Eco-Flush incorporates a special biodegradable organic compound with unique properties. It has the ability to lift off stains quite readily and effectively. The compound also has inherent deodorizing and sanitizing properties and thus is able to inhibit the growth of bacteria, especially odour-causing bacteria. Eco-Flush can function effectively in extreme levels of water hardness, leaving the toilet bowl clean with a fresh scent.

PRODUCT FEATURES/BENEFITS

- Eliminates odour-causing bacteria
- Removes stains readily
- Environmentally friendly
- Ready-to-use formula

DIRECTIONS FOR USE

Apply Eco-Flush directly by gently squeezing the bottle in the direction of the area to be cleaned and allowing it to run down the sides and the outlet of the toilet bowl. Scrub with a brush. For difficult stains, leave product to stand for 5-10 minutes before scrubbing. Flush after use.

PRODUCT SPECIFICATIONS

- Appearance.....Clear, slightly viscous liquid
- Colour.....Blue-green
- OdorApple
- Specific Gravity at 25°C.....1.02± 0.01
- pH (100% solution).....9.0 ±1.0
- Active Ingredients.....Urea and Ethoxylated alcohol
- Shelf Life.....1 year
