

FC-1 - HEAVY DUTY ALKALINE FLOOR CLEANER

TECHNICAL SHEET

DESCRIPTION

FC-1 is a heavy duty alkaline floor cleaner which utilizes a three-way cleaning action. It dissolves the toughest types of soils, then penetrates the floor further to dissolve and eliminate any hidden soils, and lastly it emulsifies the soil particles into a suspension which is removed by rinsing. FC-1 is capable of removing soil, grime, wax film, soap scum, oil and grease deposits from floors. It is suitable on concrete, terrazzo, glazed tile, quarry tiles, vinyl composites and sealed wood.

PRODUCT FEATURES/BENEFITS

- Removes tough soils from floors
- Multiple application - suitable for a range of floor types
- Low foaming – easy rinse off
- Can be used with either hot or cold water

DIRECTIONS FOR USE

For daily cleaning of floors:

1. Mix 1-2 oz. of FC-1 per gallon of hot water.
2. Apply solution with a floor machine or mop. Stubborn soils may require agitation with a stiff brush or broom.
3. Remove solution from the floor using a mop dipped in clean, hot water and allow the floor to air dry.

N.B – For floors left unclean for a lengthy period of time, use 4-6 oz. of FC-1 per gallon of hot water and then follow procedures 2 and 3.
