

## PRODUCT DATA SHEET

# ECO-FLUSH

### NON-ACID TOILET BOWL CLEANER

**Environmentally Friendly:**

**ECO-FLUSH** is an environmentally safe Toilet Bowl Cleaner designed to provide effective cleaning and sanitizing of Toilet Bowls without the harmful effect of aggressive chemicals such as Hydrochloric Acid, which can impact negatively on the ecosystem when discharged as an effluent. This is especially significant in locations close to sensitive habitats such as coastlines where the aquatic life would be adversely affected.

**Special Formulation:**

**ECO-FLUSH** does not rely on any acid as its active ingredient but rather incorporates a special biodegradable organic compound with unique properties. One of these properties has the ability to lift off stains quite readily and effectively. This compound also has inherent deodorizing and sanitizing properties and thus is able to inhibit the growth of bacteria, especially odor-causing bacteria, thereby getting rid of foul smells arising from heavily utilized Toilet Bowls.

**Versatile:**

**ECO-FLUSH** is a versatile Toilet Bowl Cleaner which can function effectively in extreme levels of water hardness leaving the Toilet Bowl clean with a fresh scent that lingers.

*Consult your CHEM CLEAN Specialist for specific use directions.*

## **GENERAL USE DIRECTIONS:**

Lift the spout on the cap and gently squeeze the bottle in the direction of the area to be cleaned and allow it to run down the sides and the outlet of the toilet bowl, ensuring that all the areas have been cleaned.

KEEP OUT OF REACH OF CHILDREN.  
DO NOT MIX WITH ANYTHING BUT WATER.  
DO NOT REUSE CONTAINER.  
THIS PRODUCT IS BIODEGRADABLE.

## **ACTIVE INGREDIENT:**

Carbonyl Amide

## **CAUTION:**

Harmful if swallowed. May cause irritation. Protect skin, eyes and mucous membranes from contact with this product and solutions of it.

## **FIRST AID**

**EXTERNAL:** Immediately apply vinegar, if readily available. Immediately flush skin with cool running water for at least 15 minutes. Immediately remove contaminated clothing and wash before reuse.

**EYES:** Immediately flush with plenty of running water. Remove contact lenses, if applicable. Continue flushing for at least 15 minutes.

**INTERNAL:** If swallowed, do not induce vomiting. Rinse mouth. Do not give carbonates or bicarbonates. Immediately drink a large quantity of raw egg, milk or milk of magnesia followed by large quantities of water periodically. Never give anything by mouth to an unconscious person. **GET IMMEDIATE MEDICAL ATTENTION.**
