

TILE SEAL PLUS – INDOOR/OUTDOOR SEALANT

TECHNICAL SHEET

DESCRIPTION

Tile Seal Plus is a water-based, 100% acrylic, self-crosslinking, nanopolymer gloss sealant. The formulation is specifically developed for surfaces including driveways, sidewalks, patios, clay pavers, overlaps, decorative concrete and garage floors. Designed for both exterior and interior use for a wide range of horizontal and vertical surfaces. Tile Seal Plus has excellent blush resistance, great exterior durability and adheres well to surfaces, leading to long-lasting and attractive surfaces. It also provides good chemical and efflorescence resistance and enriches appearance by resisting discoloration from dirt and spills. Tile Seal Plus does not yellow, instead it enhances the colour of the substrate when applied in 2 coats. Quick drying time provides for a faster application. When applied the product penetrates surface pores up to 3 - 5 mm and prevents reabsorption of water thereby minimizing tile weathering and the growth of algae, mold and fungus.

PRODUCT FEATURES/BENEFITS

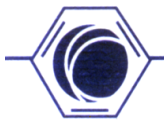

- Exterior and interior use
- Quick drying time
- Excellent blush resistance and exterior durability
- Chemical and efflorescence resistant
- Minimization of tile weathering and the growth of algae, mold and fungus

DIRECTIONS FOR USE

1. Dampen the surface with water before applying Tile Seal Plus solution.
2. Apply Tile Seal Plus using either sponge or microfiber mop.
3. For a higher gloss on indoor surfaces, evenly apply multiply coats of FP-2 indoor floor polish as desired ensuring proper drying between each coat application.
4. For a higher gloss on outdoor surfaces, evenly apply multiple coats of Tile Seal Plus as desired.

1 litre of working solution provides coverage for 317 square foot (first coat application).

N.B. Always test working solution on a small area of the surface. For vertical surfaces, avoid run-down or overlapping. Start at top and work down.

PRODUCT SPECIFICATIONS

- Appearance.....Opaque, milky emulsion
- Colour.....White
- OdourMild Solvent
- Specific Gravity at 20°C.....1.01 ±0.015
- pH (100% solution).....9.5 ± 0.5
- Active Ingredients.....Nanopolymer emulsion
- Shelf Life.....2 years

SAFETY INFORMATION

CAUTION: Keep Out of Reach of Children. Harmful if swallowed. May cause irritation. Flush eyes with generous quantities of water if product has contact.

PRECAUTIONARY STATEMENTS: See SDS for complete Precautionary Statements, First Aid, Physical or Chemical Hazards and Storage and Disposal.

Available packaging: 2L, 4L, pail (18L), mini-drum (75L) & drum (208L)

DISCLAIMER: To the best of our knowledge, the information provided in this Technical Data Sheet is correct. The Manufacturer assumes no liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user.
